OEKO-TEX®
CONFIDENCE IN TEXTILES
STANDARD 100
11-20489 Shirley
Tested for harmful substances.
www.oeko-tex.com/standard100

Organic, Ethical, Climate Neutral

100% prodotto biologico, produzione etica certificata, impronta carbone ridotta del 90%

100% Prodotto Biologico

EarthPositive® è prodotta esclusivamente con cotone biologico indiano e l'intero processo di produzione è controllato e certificata in conformità con l'ultima versione del protocollo del GOTS. Tutti i prodotti sono etichettati come biologici.

Continental Clothing Company è certificata dal Global Organic Textile Standard (GOTS) dal 2007. Negli ultimi sei anni la Società è stato il più grande licenziatario di tessile biologico della Soil Association.

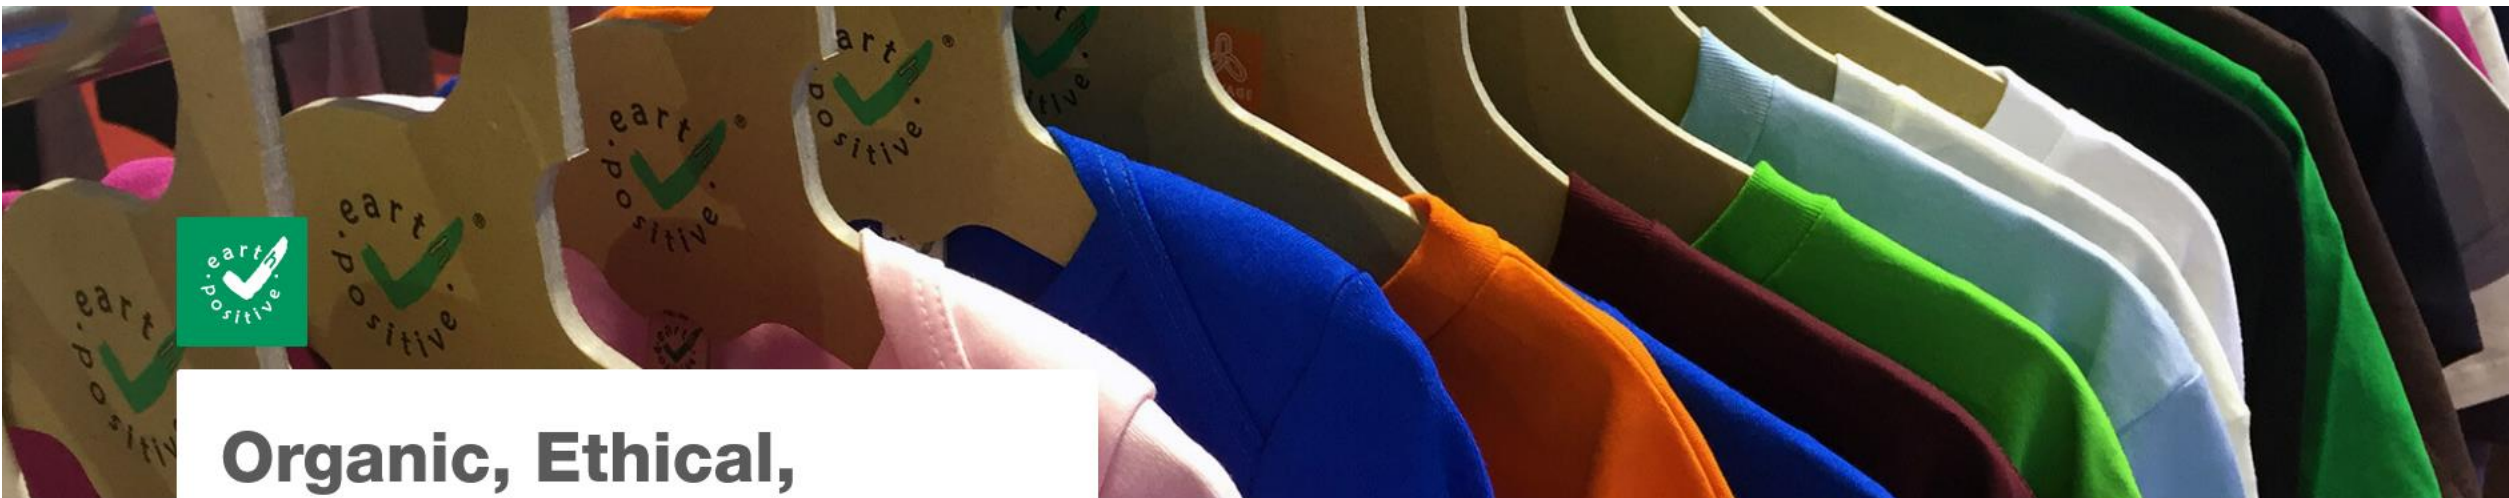

Produzione Etica Certificata

Il 100% della produzione EarthPositive® viene verificato annualmente per rispettare il Codice della FWF sulle Pratiche di lavoro in conformità con le convenzioni dell'Organizzazione Internazionale del Lavoro.

Clothing Company Continental è membro della Fair Wear Foundation (FWF) dal 2006.

Impronta Carbone Ridotta Del 90%

EarthPositive® è realizzata in impianti di produzione alimentati da energia verde rinnovabile e da materie prime a basso impatto. L'impronta di carbonio dei prodotti EarthPositive® è stata ridotta di circa il 90%. Il calcolo della riduzione è certificato secondo lo standard PAS2050.

Organic, Ethical, Climate Neutral

Responsabilita' sociale

Abbiamo tutti il diritto ad un ambiente di lavoro sano e sicuro, un salario di sussistenza, un contratto legalmente vincolante. Tutti abbiamo il diritto di essere libero da discriminazioni e molestie, per unirsi o di non aderire ad un sindacato, di scegliere il nostro lavoro liberamente. Abbiamo tutti il diritto di un orario di lavoro equo e ragionevole e i nostri figli hanno il diritto di andare a scuola.

Continental Clothing Co. ha adottato una politica risoluta per quanto riguarda i seguenti criteri minimi di responsabilità sociale:

- No utilizzo di manodopera minorile
- No utilizzo di lavoro forzato
- Sane e sicure condizioni di lavoro
- Contratto di lavoro legale
- Pagamento di un salario giusto
- Diritto di associazione e contrattazione collettiva
- Nessuna discriminazione contro gli impiegati
- Nessun orario di lavoro eccessivo

Riduzione impronta carbonio

L'impronta di carbonio (CO₂e) è il totale di anidride carbonica, il metano, il protossido di azoto e altri gas serra emessi durante la coltivazione e la raccolta di cotone, lavorazione delle fibre, la produzione tessile, imballaggio, trasporto e magazzinaggio. Nel gennaio 2008, Continental Clothing Co. è la prima azienda al mondo a calcolare l'impronta di carbonio e posizionare il Carbon Reduction Label sui prodotti tessili.

Abbiamo ridotto l'impronta di carbonio dei prodotti EarthPositive® di circa il 90% attraverso una combinazione di design innovativo, agricoltura biologica, efficienza nella produzione e sostituendo la rete elettrica tradizionale con energia eolica rinnovabile. Non usiamo crediti per la compensazione di carbonio ed i nostri calcoli dell'impronta sono certificati dal Carbon Trust Certification nel Regno Unito.

È stato calcolato che una singola T-shirt EarthPositive® fa risparmiare 7 Kg. di CO₂ immessa nell'atmosfera mentre una felpe arriva a far risparmiare fino a 28kg.
